**PROFILE**

I am first a Christ follower, husband to a wonderful woman named Casey, Father of a perfect baby boy Aiden and lastly a freelance Filmmaker and Photographer who sees life through the lens of a camera. I have traveled the globe producing documentaries and photo journalism projects. I traveled with many different ministries to produce videos across America as well as countries such as Nicaragua, Venezuela, Argentina, the United Kingdom, France, Germany, Mexico, Africa, the UAE, the Bahamas and four trips to Israel. I love moving the souls of people using film and pictures and have always been involved in serving my local church through this art-form as well. I believe there are very few things more powerful than that of a great story told using moving pictures.

I have always been an entrepreneur by heart. I started my film company in college and photography company in 2008. My wife Casey and I opened our own Art Studio for Kids called "A Little Artsy" in 2007 located in Dallas, TX. We give art lessons to children of all ages (99% are ages 3-10) in a safe and fun environment. It gives me time to work with my wife and to be a consistent role model for kids and minister to the families of our students. It has been a bit of a side road for me as far as my filmmaking is concerned, but I believe the Lord is using me in a mighty way during this season of my life. I am still able to use my talents in film for the Lords purposes.

I am open to wherever He leads, no matter how far down my roots may go.

**WORK EXPERIENCE****FELLOWSHIP CHURCH OF GRAPEVINE — 2002-2004**

This was my first "real job" after college. I was the Media Director for the youth ministry. It was a blast.

**FIRST BAPTIST CHURCH - DALLAS — 2005-2008**

I had many jobs with FBC Dallas. All involving being creative and producing videos.

**A LITTLE ARTSY — 2007-PRESENT**

I am the owner of an art school for children and manage the every day tasks that make the studio function. From turning on the lights, taking out trash, cleaning toilet seats, washing out paintbrushes, operating the cash register, updating Quickbooks, building the website and paying bills. One of the more challenging parts of my job is to always be thinking of ways to make our Studio better. I love change when change is needed. I love the 250 kids we teach every week and I really love my job.

**EDUCATION**

Baylor University, Waco, TX — Bachelor of Arts 2002

**SKILLS**

I am a Pro in editing software including, Final Cut Pro, Photoshop CS4, and After Effects. (the big 3)

I have a great knowledge in Web Design, Graphic Design, Marketing, Advertising, Producing, Directing, and Management.

**REFERRALS**

In consideration of the amount of things God has me doing these days, referrals depend on the type of job in which I am being considered. I am more than happy to email a list if need be.
